

ARC-H1B1E

Description:

- APTV Rating: 12.1
- Meets ASTM F 1506
- Hazard Risk Category: 2
- Complies with NFPA 70E

Fabric: 88% Cotton / 12% High-Tenacity Nylon

The fabric is engineered to focus on abrasion resistance from the nylon on the outer surface to prolong garment wear life. The Cotton fibers are focused on optimizing comfort to the skin.

Color: Navy Blue

Design: One Ply Top, One Ply Bib

Guaranteed flame resistant for the life of the garment. Great for enhanced protection from electric arc and flash fire exposures as well as multipurpose protection from molten metal and welding exposures.
